Hardworking and reliable worker seeking a labour position to apply hands-on skills, and grow in a new setting. Physically capable, and mechanically inclined, with experience in both general labour and technical design projects.

EXPERIENCE:

JULY 2023

STORE CLERK, SAVE ON FOODS

- Helped around the store with receiving goods and stocking them where required, running the deli, and working on cash.

JULY 2023

WEB DEVELOPER, Freya Logging

- Developed shop front and business end for Freyaforest.com

EDUCATION:

FIRST YEAR ENGINEER COLLEGE OF NEW CALEDONIA

- 3.7 GPA
- Finishes work in due time, leaving much time for other things after school
- Winner of best engineering project and best automotive project at CISE (level 1)
- Finalist at The Canadian National Youth Science Fair with a project on a forestry machine focused on minimal impact to the forest

SKILLS/HOBBIES:

- Comfortable using hand tools: drills, hammers, measuring tapes, saws, etc.
- Physically fit; capable of lifting 50-100 lbs repeatedly
- Experience working outdoors and in changing conditions
- Strong awareness of safety procedures and hazards
- Familiar with AutoCAD, Fusion 360, and SolidWorks for mechanical design
- Able to troubleshoot and think critically under pressure
- Making videos communicating Science
- Coordinating and constructing mountain bike trails
- Long distance backpacking
